

Measurement tool hire

Description

Tools to use with our remote consulting services

Basic hire system

Dayton UMM6 USB mic

Cost to buy: \$128 (including \$14 shipping)

Hire cost: \$68 + 60 bond refundable on return in working order

Recommended for room analysis or bass assessment

Not suited for bass integration

Advanced hire system

Dayton EMM6 mic with USB interface & mic cable

Cost to buy: \$319

Hire cost: \$99 + 200 bond refundable on return in working order

Recommended only for bass integration

How it works:

1. Choose the right system based on your needs
2. Pay hire + bond up front
3. We send the hire system to you (shipping is included in the price)
4. We send instructions after you have purchased consulting time
5. Take your measurements and send to use for analysis
6. We discuss the results and provide advice
7. Return the hire system to us
8. We refund the bond on safe return of the items in working order

Hire system to be returned within 2 weeks

Extra charges apply for further time (\$10/week basic, \$20/week advanced)

We provide this hire service to save you spending money on tools you may only need to use once.

If you see an ongoing need to use the tools, we recommend that you buy.
